

TO OPEN NEW PHOTOGRAPH GALLERY SATURDAY

A. E. Ash will open a photograph gallery Saturday in the frame building on Main street which he has been occupying as an Art Studio for some time. He has recently equipped his studio with a powerful "Photolite," a fine portrait camera, and will be able to take pictures night or day.

Mrs. Ash, who is a painter of no mean ability, will help at the studio and will finish most of the portraits, insuring artistic work.

It is claimed that the thousand-Watt "Photolite" in the studio, is the only one west of Kansas City in this state.
